WROUGHT IRON FENCE REPAIRS AND PAINTING TO FOLLOW

PLEASE CLEAR THE BASE OF THE FENCE OR ATTACHMENTS!

The Association maintains the wrought iron fence at the back of the homes /lots on the “top” of slopes. Fencing at the bottom of a slope is maintained by the Owner. The wrought iron repairs is underway and half way completed (17,500 lineal ft) being done by Carasso Construction. The second phase to paint is being done by a separate vendor, 1st Street Painting, who started the painting in early May and is being done in 7 sections. You can contact Management for the approximate time window for the painting on your street. As the repair time was hard to gage; some areas needing more work than others, the painters did not immediately follow the welders. The reason for the work being done in 2 phases was to avoid the painters catching up with the welders was to avoid the paint crew having to pull back and or off the job if they caught up with the welders. In the past, the welding and painting was done by the same vendor and this time the Board decided on separate vendors, each specializing in their fields. If you have Association maintained fencing, please be advised that separate notices from both vendors, will be posted at your property, with the dates and window of time. Please ensure you clear built up of soils at the base of your fence and remove attachments or the fence will be bypassed.

The fencing will be reviewed prior to the work, and if it is determined that an Owner has contributed to damage due to the aforementioned, the Owner may be held responsible for the related costs.

REMIDER OF THE MONTH/TIP: Since March 2020, many of our lives have changed due to COVID-19. Those of us who previously enjoyed in person shopping at a store, may be making even more frequent purchases online and continue to do so during recovery. This means more package deliveries to your home or business and increased opportunities for criminals to steal from you. To avoid theft of packages delivered to your home, below are prevention tips:

- Get a PO box or locker where deliveries are monitored and secured
- Use tracking numbers and delivery notifications to track your packages
- Bring your package inside as soon as it is delivered
- Ask a neighbor to hold a package for you
- Have items delivered to your place of business if you are not home during the day
- Consider having valuable items insured
- Opt for your package to be delivered to the nearest postal store
- Ask that your package require a signature for delivery confirmation
- Consider having packages delivered to another location where someone is likely to be present during delivery, like a friend or relative
- Use doorbell cameras to monitor deliveries and install motion lights for nighttime movement
- Purchase items from known companies and research their policies for related to reimbursement or replacement for stolen items
- Consider a package guard device that will notify you if someone picks up your package without permission
- Reschedule a delivery or ask for a package hold when you are out of town
- Notify the Police Department immediately if you see a crime in progress
